

Group 2: Kyle, Jesus, Ying, Connor, Gage, Adam, Mason

Group 5 – Homework 4 Grade

Graded by Group 2

2.18

The answers they gave us were correct. Unfortunately, we were not given any code that we could try to break.

2.23

All of the answers look correct. They showed their work nicely and showed how they arrived to their answers. This problem is very well done.

Overall, they did pretty well on their assignment, however it would have been nice if we could have got their code.
